

2022 ASIA SPRING/SUMMER COLLECTION

Designed in France 

IXON is a brand of motorcycling equipment created by and for motorcyclists. The company was founded in 1996 in France by Thierry Maniguet, a big fan of motorcycling. Today it is an international brand distributed in over 70 countries. But it has stayed close to its roots. Thierry Maniguet is still at the head of IXON, and our headquarters are still in France, in Mâcon.

YOUR RIDING EXPERIENCE IS OUR PRIORITY

We are convinced that along with the importance of your motorbike and the environment all around you, the equipment you use helps to shape your riding experience. At IXON, we have a committed approach: we want to play our part in your riding experience. To make sure you enjoy the best possible experience at the handlebars of your machine, we strive to provide you with the very best equipment. Since the brand's beginnings in 1996, this is our mission.

FROM OUR RIDERS TO YOU, INNOVATION AND TECHNOLOGY ARE THE TWO DRIVING FORCES IN DEVELOPING OUR EQUIPMENT

Our aim is to reflect everything we learn in the heat of competition in the products you wear. To achieve that, the two driving forces behind our product development are innovation and technology. By using motorcycle sport as our main avenue for research and experiment, we develop innovations and technologies with our riders, and then adapt the products to our collections for you.

OUR PRESENCE AND IMPACT IN MOTOGP™

Since its arrival in MotoGP in 2010, IXON has become an **essential player in the paddock**: it is one of the most widely recognised brands for the quality of products and associated services.

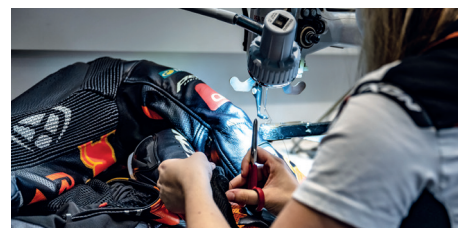

IXON offers riders **made-to-measure IXON suits** plus a dedicated **racing service**. It also provides teams with **IXON teamwear**, the brand's technical clothing for team members. IXON addresses racing fans as well thanks to **IXON merchandising**, featuring both official team merchandising and official rider merchandising.

MADE IN FRANCE

We are proud to have **100% French expertise** at our head office in Mâcon. The **IX-LAB** is our innovation and production laboratory at the IXON HQ in Mâcon: this is where we make **all our made-to-measure suits for our professional riders**. It's precise and highly technical work. The suits are tailored to each racer's body shape as well as their personal preferences and requirements over the course of the racing calendar. That means every suit the IX-LAB teams make is made on request as a one-off: **each suit is a unique piece**.

The IX-LAB uses its expertise, organisation and versatility to keep the suits up to date: **modifications, adjustments and repairs** are provided throughout the season with very short turnarounds to give our professional riders **the best possible service**.

SIZING CHARTS

MEASUREMENTS

To see which size will suit you, take the measurements shown below.

A HEIGHT

Stand up with your legs straight and measure your height.

B CHEST SIZE

Place your tape measure around the widest part of your chest and breathe normally.

C WAIST SIZE

Place your tape measure just below your bottom ribs around your stomach.

D HIP SIZE

Place your tape measure around the widest part of your hips and buttocks.

E CROTCH TO ANKLE

Stand up with your legs straight and measure from the crotch to the ankle.

CHOOSE YOUR SIZE

Compare your measurements to the charts. If your measurements produce different sizes, choose the next size up to cover all measurements.

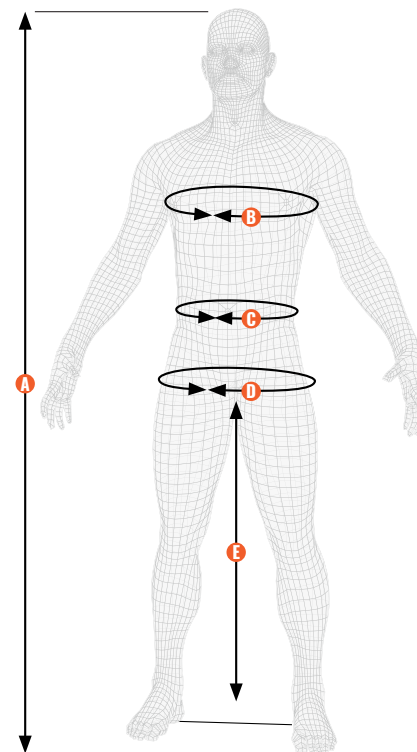

Example for a men's jacket:

B = 98cm: L

C = 88cm: XL

D = 94cm: L

So XL is the right choice
